Subject: RE: TO-035 Upper Animas - Budget Update / Funding Request

.....
>>>>>>>

The amount of work is voluminous and somewhat unexpected. The information represents well over 100 banker boxes of original and historical information, which now has to be analyzed and prepared into Litigation Notebooks. The information is very technical and litigious in nature, and thus, it requires significant research. Toeroek's proposal appears fair and responsible to me and I highly recommend proceeding. Mike Rudy, WAM, TO-35

Subject: TO-035 Upper Animas - Budget Update / Funding Request

Mike,

As we discussed on the telephone, we have approximately \$8,000 remaining on the Upper

Animas Task Order (TO-035). Toeroek was recently tasked to review and organize large 104(e) Response document collections, as well as analyze relevant information and present it to EPA in the form of Excel notebooks. Based on the extent of work required to complete this task by the deadline of August 15, 2014 and the anticipated need for subsequent support after the notebook delivery, Toeroek requests additional funding in the amount of \$49,800 (670 hours).

This funding will cover the work to review the 104(e) responses, prepare the notebooks and diagrams, complete a small redaction project, and provide negotiation and litigation support to EPA going forward.

Please contact me with any questions or comments.

Thank you,

Lindsay Garner | Project Manager
